Mr. Kenneth Tinsley
Water Resonance Technologies, Inc.
PO Box 2704
Taos, NM 87571

Dear Ken:

Thank you for providing the Grander Technology water treatment system we installed at the Fort Marcy and Bicentennial Pools in July of 2008. Our staff and our patrons have noticed many positive changes in our pool's water since the Grander system was installed.

One of the most obvious changes is the substantially reduced smell of chlorine, as we have discussed, due to the reduction in chloramine off-gassing in the indoor pool area. Our patrons and staff have also reported a reduction or absence of skin, eye, and respiratory irritation and a general overall improvement in the atmosphere in our pool environment.

Since the time of the Grander Technology system installation, we have also experienced a 40 to 50 percent reduction in chlorine consumption. Our bacteriological tests are in compliance with the standards set by the State of New Mexico Environmental Department.

In time, we suspect that more of the benefits of the Grander system will become apparent to us and our patrons. Overall, the Grander system has met or exceeded all of the proposed performance parameters, and we are very satisfied with the results.

Sincerely,

Peggy Sanchez
Pool Manager
Recreation Division
Santa Fe, NM 87504
